

Leadership Intensives

Consisting of two or three days of impactful workshops and school visits, BES offers small-group trainings that are customized to meet the needs of all K-12 leaders and teams.

Leadership Intensives support leaders at integral periods of the school year by equipping them with strategies to solve some of the most common leadership challenges. Through action planning and analysis of proven practices, participants learn how to effectively lead and manage their organizations, so that they can concentrate on the goal at hand: equitably educating all students and improving their academic performance.

Leadership Intensives are for all K-12 school leadership team members across various roles. Whether you're a school leader, teacher, instructional coach, network director, leading from the operations office, in a culture role, or leading a grade level or content area, Leadership Intensives have something for you.

CUSTOM TRAINING FOR YOUR SCHOOL

BES also delivers custom Leadership Intensives for those seeking more tailored content for their leaders. We partner with you to design training or workshops that are specific to your unique context. Sessions are ideal for groups of 5 or more leaders from the same school, network, district, or organization.

WHAT TO EXPECT

- Engage in interactive team training led by expert coaches.
- Leave with practical tools and actionable takeaways.
- Learn from leaders' approaches to running an excellent school.
- Network with like-minded leaders from schools across the country.

PRICING

In-person Leadership Intensives vary based on number of days and lodging needs.

Cost for custom Leadership Intensives varies based on the content and length of sessions determined in collaboration with the partner organization. Leadership Intensives can be stand alone or serve as a complement to an existing BES program.

Visit BES's website to view upcoming Leadership Intensive scheduling throughout the school year.
