

Leadership Intensives

FOR ALL K-12 LEADERSHIP & TEAM MEMBERS

See strong schools in action, analyze proven practices, participate in relevant and actionable professional development, and engage with a community of other leaders.

2 OR 3 DAYS

Participate in a cohort-style program and connect in person with other K-12 leaders.

TRAINING

Engage in training that will equip you with strategies to solve common leadership challenges.

SCHOOL VISITS

Learn from exemplary schools and observe the systems that make them strong.

Sharpen the skills needed to lead a transformational school. Leadership Intensives support leaders at integral periods of the school year by equipping them with strategies to solve some of the most common leadership challenges.

Through action planning and analysis of proven practices, participants learn how to effectively lead and manage their organizations, so that they can concentrate on the goal at hand: equitably educating all students and improving their academic performance.

WHO ARE LEADERSHIP INTENSIVES FOR?

Leadership Intensives are for all K-12 school leadership and team members across various roles.

This includes school leaders, principals, assistant principals, teachers, instructional coaches, deans, and network directors as well as those who lead in the operations office, grade level, or content area.

PROGRAM COMPONENTS

- Visits to exemplary schools allow leaders to analyze, adopt, and adapt practices that can be integrated into the unique context and setting of their own work.
- Leaders will participate in team training and experience a cohort-style program that will allow them to engage in professional development with colleagues in similar situations.
- Training discussion topics include systems analysis, action planning, and exemplar resources for leaders to adapt in their own practice.
- Previous workshop themes have focused on motivating teams, equitably analyzing student data, strategic planning, and more.
